

Warranty

All parts supplied by Fluid Global Solutions s.r.l. are perfectly interchangeable and produced by following the procedures for the correct identification of product requirements in terms of raw materials, production processing, surface treatment and tolerances of the parts. This is to guarantee that the product has equivalent or even higher features as the original.

During guarantee period any item showing production failures/defects will be replaced by Fluid Global Solutions s.r.l. completely free of charge in due time. Within the guarantee period returned parts, remain property of Fluid Global Solutions s.r.l.

In case of wrong installation of supplied parts and/or low maintenance of the machineries where parts have been installed, Fluid Global Solutions s.r.l. rejects any kind of responsibility.

In this case any exchange will be at customer's charge.
